Customer Rights:

The customer has the right to withdraw consent of this Approval at anytime. This request should be made in writing to the DPG contact named above. DPG will action requested without undue delay.

Customer Reference Quote:

From our first contact with both Nick (Alexander) and Steve (Mellings), it became clear in DP Governance that we were dealing with a well-informed, highly experienced and capable team in relation to GDPR regulations, who had both a sensible, practical and yet holistic approach to compliance, supported by compelling tools and highly effective processes to assess initial gap analysis, and follow-up implementation planning. We had no hesitation in seeking to appoint them to provide our DPO service.

They quickly understood the priorities and challenges we faced, and were able to tailor a bespoke service that fitted well with the needs of our business based on our state of readiness, and have been invaluable in providing real clarity in their insight and understanding of what is presently an untested, in some cases vague, and yet technical area of regulation.

Since appointing DP Governance, we have been hugely impressed in the way they have worked with us, acting like long-standing and trusted business partners and providing regular, timely and professional support, as well as leading us through some complex corporate challenges, to make sure we will be compliant with GDPR when it comes into force.

I would have no hesitation in endorsing DP Governance in relation to GDPR services.

Customer has executed this Approval by and through its duly authorized representative.
